PADUCAH, KY., TUESDAY EVENING, MARCH 30, 1909.

TEN CENTS PER WEEK

DYNAMITE KILLS EIGHT, WOUNDING ELEVEN BESIDES

Gang of Workmen Warming
by Fire Where Explosive
Is Thawing Out.

Fragments of Bodies Hurlled
High in the Air.

MOST OF THEM FOREIGNERS

Chillicothe, O., March 30.—Eight persons were killed by an explosion of dynamite here this morning. Several were hurt.

A culvert is being built on a railroad and thawing dynamite exploded. The victims were horribly mangled. Seven injured were rushed to a hospital. Most of the victims are foreigners. Four hundred pounds of dynamite exploded.

The men were standing around the fire at the time of the explosion preparatory to going to work. The men were thrown high in the air. Bits of bodies were blown hundreds of yards. The shock was felt for miles around. The accident was near Bridge, this county.

J. D. McNamara, general road foreman, was a witness of the accident. He says a negro saw the stick of dynamite and tossed it away. It hit a box car and the ray went off.

Loose Leaf Sales.
Tobacco sales at Bohmer's loose leaf warehouse this morning were 18,000 pounds. There were no selections. The prices ranged from \$3.40 to \$3.75.

Marriage Today.
Mr. Jefferson S. Elrod and Miss Genevieve Martin, both of this city, were married today at the home of the bride's mother, 1021 South Fourth street, by Magistrate Charles Emery. The bride is a pretty and attractive girl. The couple will live in Paducah.

Weather Man is Fickle.
Hill and creek was played by the weather man yesterday, and nearly all Paducahans sought the first light of day, for there was a decided drop in temperature. The official gauge showed that the temperature dropped to 44 degrees, while the maximum reached was 57. The temperature was safe above freezing, but it was uncomfortable, considering the pleasant weather Paducahans have enjoyed. Opinions were varied on the effect of the cold on the fruit, some farmers claiming that the fruit crop will be curtailed, while others were equally confident that the buds have not been damaged. For tomorrow the weather bureau predicts continued chilly weather with frost tonight.

"SKEET" HEDGES CATCHES
ON IN EAST COMPANY.

After a long rest, Alonzo Hedges, known as "Skeet," a Paducah baseball twirler, has signed with the team in the Wisconsin State league, and next month will report for duty. Hedges says his salary will be as strong as ever, and he expects to climb up the ladder again into the big league. Hedges began work in the Kitty league, and his rise was rapid, and was signed by the Milwaukee team in the American association. For a while his work was sensational, but his arm weakened and he drifted back to the minors, and for two years has only played an occasional game of ball on the vacant lots. However last summer his arm was stronger, and Hedges could twirl in old time form, but he did not work hard, for fear the muscles might not stand the strain.

Frisco Scandal

San Francisco, March 30.—Detectives who participated in raiding Patrick Calhoun's offices in violation of the court's injunction were hauled into court today to show why they should not be punished for contempt of court. The proceedings are before Supreme Court Judge Murray.

Trouble at Mines

Jasonville, Ind., March 30.—More trouble between American and Hungarian miners is expected when the foreigners attempt to leave their barricaded sheds. They were given notice to leave this county. Heavily armed American miners lined along the road to see the foreigners leave. Officers arrived at the mines at 10 o'clock today to arrest Hungarians connected with yesterday's shooting. Mine officials prevented the arrests. They fear further trouble.

Crazy Snake, Indian Chief, Ready to Surrender, if He is Assured of Fair Treatment at Captors' Hands

Battle Last Evening in Which
One Brave Was Killed and
Others Were Dispersed—Little
Tiger Among Captured.

Chicotah, Okla., March 30.—Crazy Snake is anxious to surrender to a military. He is suffering from a leg wound, which is not serious, according to his own men. Monday night Jack Thompson, a Chicotah Indian, with Crazy Snake, came to Sheriff Odum's house with a message of surrender if assured fair play. The offerer replied he would be given an impartial trial. The chief, according to the messenger, says the posse began the shooting Saturday evening without warning.

Crazy Snake, according to Thompson, admits being in the house and taking part in the deadly fire Saturday evening when the son of Sheriff Odum, and Edwards and Daum, deputies, were killed.

"No shot white man's son till had to," he said.

The courier says the chief's house was fired by soldiers. The sheriff thinks the chief is serious in his overtures for peace.

Will Capture Crazy Snake.

Henryetta, Okla., March 30.—Hoffman, with 100 men, marched east this morning. It is believed Crazy Snake will be captured near Hickory by night. Soldiers captured 11 men this morning.

There is an unfounded rumor that Sheriff Pappy and his son were killed this morning in battle.

Battle Last Evening.

Oklahoma City, March 30.—A detachment of Crazy Snake's band of half-breed Indians were surrounded by deputy sheriffs last evening near Crazy Snake's home, and a lively battle ensued. More than 200 shots were fired and one Indian was killed. Eight Indians were captured and the remainder fled with the deputies in pursuit.

There were about fifteen Indians in a band that had taken refuge in a house. The deputies had tracked them some distance and were informed by a farmer of their location.

Advancing from all sides the posse fired a volley at the house. The Indians rushed out, scattered along the trees and made a valiant defense. The posse, firing all the while, steadily advanced and soon routed the band. None of those captured is seriously injured, but it is known that a number of Indians were bit by the posse's shots.

Divided Into Groups.

Crazy Snake's band apparently has been broken up into numerous small groups. It seemed at nightfall that each was trying to accomplish its own escape without regard for the grand drama of the chief's plan to realize which they were called together Sunday by the smoke of signal fires. All efforts at organized resistance seemed to have been dropped with the sinking of the sun.

Militia Also Divided.

The militiamen seemed well able to cope with this latest phase of the situation; however, which became evident late. They, too, were scattered out into bands. They invaded the hilly and wooded districts of the Creek nation in a determined effort to hunt down the war party. The wisdom of this policy at once became evident, for by 7 o'clock last night they had captured Little Tiger, a sub-chief, and several other Indians. Most of them were heavily armed.

Scores of cowboys and frontiersmen, all expert gun fighters, joined the militiamen in the chase during the day and evening. These men declared that if Crazy Snake was any

WEATHER.

FAIR.

Generally fair tonight and Tuesday, colder and probably frost. Highest temperature yesterday, 57; lowest today, 44.

FORREST SPONSOR.

Memphis, March 30.—Miss Elizabeth Carroll, of Memphis, has been named as Gen. Tyler's sponsor for the Forrest Cavalry, and will ride in a carriage just in the rear of Gen. Tyler and his staff.

Miss Carroll is the daughter of Col. William H. Carroll, Gen. Tyler, commander-in-chief of Forrest Cavalry, says he has closed a deal for 500 horses to be used by the survivors of the men who followed Forrest through the war. He believes there will be 1,500 of them at the reunion.

where in the district he would be run down.

Attorney is Responsible.

St. Paul, March 30.—"A prominent Washington attorney is responsible for the present Indian trouble," said Tams Bixby, of St. Paul, for ten years commissioner of the five Cree tribes. The attorney has agitated Crazy Snake for years.

Indian Agent Starts.

Washington, March 30.—Indian Agent Dana H. Kelse, of Muskogee, Okla., left early today to visit the conflict scene at Hickory Ground.

Illinois Deadlock.

Springfield, March 30.—One ballot for senator was taken at noon. There was no change in the situation. Indications are that the battle will continue throughout the week.

The bill to abolish bucket shops was offered in the house today by O'Brien, of Chicago.

Local Clearing House.

A meeting began this afternoon at 3 o'clock at which the officers of the seven banks will organize a permanent clearing house association. About 18 months ago the first steps towards the organization of a clearinghouse were taken and G. W. Robertson was elected president and J. C. Utterback secretary of the temporary organization.

Not Night Riders' Deed.

Henry Bennett, the night rider victim who recently removed from Jeffersonville, Ind., to Metropolis, Ill., arrived in Paducah today and stated that he does not hold night riders responsible for killing his horse at Dycusburg. He said the horse was shot all to pieces and the perpetrator was anxious to lay the blame on night riders. He knows who did it. He paid \$200 for the horse.

Hurt in Runaway.

Fred Sharon, a young farmer, fractured his left leg near the knee, lost one tooth and was internally injured when his horse ran away Saturday. Sharon lives in the Mt. Olive church neighborhood. Dr. Q. J. Shelton closed the fracture and reset the leg. His condition is considered precarious, but last night he rested easy and his chances for recovery have been strengthened.

Save Water Power.

Des Moines, Ia., March 30.—Gifted Pinchey, chief of the bureau of forestry, addressed the legislature urging it to pass laws conserving the natural resources of the state. "Unless you safeguard the water power of the state, Iowa will lose, as the big corporation are seeking the country for suitable sites where to erect power stations. In years from now it will be too late, and I urge the legislature to act once. Coal, oil and gas will be exhausted, but water never."

Henry Bennett Dies

Henry Bennett, who had sued in federal court against alleged night riders for damages, was removed from Jeffersonville, Ind., to Metropolis, Ill., before being killed by Mr. Bennett left the state to sue the suit in the federal court and moved to Jeffersonville, where it would be convenient for him to consult his attorneys. He is actively engaged in securing evidence against the defendants, and for this reason has been removed to Metropolis, where he will be close to Paducah. Although he has been threatened Bennett has made frequent trips to the Black Patch, and it is said he is in securing valuable evidence. Mr. Bennett arrived in Paducah last night from Metropolis.

SOLDIERS READY TO TAKE FIELD AT MOMENT'S NOTICE

Owensboro Company Practically
Under Arms, Awaiting
Orders.

Trouble Anticipated in the
Black Patch.

PROBABLY BIG MAIL ROBBERY

Owensboro, Ky., March 30.—Company C is ordered to be ready to move to the Black Patch at a moment's notice.

Parrish Trial.

Hawesville, Ky., March 30.—The jury is sequestered. The Parrish trial is on.

Mail Pouch Robbery.

Georgetown, Ky., March 30.—A daring mail pouch robbery in which the alleged thieves secured probably more than \$50,000 in currency and checks, was made public by the local postoffice officials, when the iron parts and charred leather of two pouches were found by a boy near Crane, from which they had been taken. Checks to the amount of \$38,000 addressed to the Burley Tobacco society are said to be among the stolen property. No clue to the thieves.

Mary Farmer.

"I can't find her just learned of the death of Miss Mary Farmer, 34 years old, formerly of the Friends, at the home of her sister, Mrs. M. C. Keesee, in Cincinnati. Miss Farmer had been in ill health for many years and was forced to resign her position in Paducah owing to her illness with tuberculosis, which caused her death. She had been associated with Miss Florence Raper, the matron of the Home of the Friends, for many years, and practically all of her life has been devoted to charitable work. While in Paducah Miss Farmer won the friendship of many friends, who will regret to learn of her death.

MUCH COUNTRY PRODUCE ON MARKET THIS MORNING.

A large quantity of country produce and garden truck was on market this morning and sold at the following prices: Turnip greens, per bushel retail, \$1.20; wholesale, 90c; kale, per bushel retail, 90c; wholesale, 75c; radishes, per dozen bunches retail, 30c; wholesale, 20c; celery, per dozen bunches retail, 40c; wholesale, 30c; green onions, per dozen bunches retail, 15c; wholesale, 10c; beets, per dozen bunches retail, 90c; wholesale, 60c; lettuce, per basket retail, 50c; wholesale, 65c; potatoes, Irish, per bushel retail, \$1.30; wholesale, \$1.05; potatoes, sweet, per bushel retail, \$1; wholesale, 75c; eggs, per dozen 15c to 20c; butter, per pound 25c to 30c; spring chickens, 35c to 45c; good hens, 35c to 75c. Smoked country cured meats were plentiful on market this morning and sold at the following prices per pound: Ham, 15c; shoulders, 10c; bacon, 15c; pure lard, 12 1/2c; stuffed smoked sausage, 15c; pork sausage, 12 1/2c. From now on the prices on market will be normal and new stuff from the country will be coming in all the time.

BARGE BUILDING PLANT UNDER WAY FOR COAL COMPANY

Before the fleet of barges for the West Kentucky Coal company can be built it will be necessary to erect practically a barge building plant. The company has a shipment of machinery en route to Paducah now, and at present a force of men is at work clearing off the location of the river bank. The river has been too high for several weeks for work, but now the water is dropping rapidly, and the bank is being made ready, although it will take it days to dry out as it is so muddy that a man cannot walk on it without miring.

Several saws, a planer and other machinery will be installed on the site and when work is begun, which will be some time in April, it is intended to rush it. Mr. C. M. Riker, manager of the company, this morning stated that the company could use 100 new barges now, and that the management is anxious to have the barges completed and put into use as rapidly as possible.

Advocates Expect to Put Lumber on Free List if They Are Allowed to Vote on Each Schedule Separately

In Senate Elkins, of West Virginia, Denounces New England Senators, For Their Selfishness.

Washington, March 30.—An effort was made by Tawney, of Minnesota, to round up the tariff sentiment of Republican members of the house from western states. Indications are that the general debate will end Thursday. Probably the debate on sections will follow under the five-minute rule.

The Michigan delegation is considering the question of making a united stand against tea and coffee taxes.

Free lumber advocates are confident if a separate vote is secured in the house lumber will be put on the free list in the Payne tariff bill.

Stirling, of Illinois, spoke against free hides in the house today. He declared this provision of the Payne bill is an attack on the farmer.

The Democratic slogan, "Tariff for revenue only," was destroyed by Bates, of Pennsylvania, in the house today. He declared the policy resulted in England's present condition of "idles unemployed and rock bottom wages."

New England's Power.

Washington, March 30.—Fury on the one hand, disorder, confusion and the destruction of the hitherto conservative and of Republican senators who lead the direct legislation on the other, marked the closing of the session in the upper branch of congress. Where peace and amity presumably had reigned before among such senators as Elkins, Scott, Aldrich, Hale, Lodge and Gallinger, these were torn asunder in 20 minutes' time through the revolt in open senate of Elkins, of West Virginia, against an alleged combine of New England senators to control the tariff in the exclusive interests of their own states.

"New England demands protection for her manufactured articles, but you want and insist that your raw materials, such as coal, hides, lumber and iron, be on the free list," he said. "The hour has come for the south, with her 24,000,000 of people, with the raw materials she is manufacturing at home, instead of sending it to New England, to ask for protection. Three of your members (indicating Lodge, Hale and Aldrich), who are on the finance committee and who practically control its deliberations, are from New England. Why is it that neither the middle west nor the south is represented on that committee by a Republican?"

"It is a fact," his voice now raised to its highest pitch, "that neither a western Republican nor a southern Democrat is permitted to have an audience with the sub-committee now holding sessions to appear before it in justice to their constituents. And why? New England does not want them. You—"

"Mr. President," his voice ringing like that of an ox whip, "I ask that the senate do now proceed to the consideration of executive business," said Lodge.

"You see," replied Senator Elkins. "New England can not keep out of anything."

Instantly the chamber was in a tumult. The confusion was so great that the vice-president constantly rapped for order.

Washington, March 30.—They say that there will be strenuous opposition to the passage of the Payne tariff bill as it now stands. Certain industrial interests plead that their existence is imperiled by a paragraph here and there in the bill; and it is known that lobbyists are as thick at the Capitol as bees around a hive in clover time.

Therefore the bill merits careful attention. But as a precautionary measure, it is recommended that the seer after knowledge provide himself with a dictionary, an encyclopedia, a pronouncing gazetteer, a glossary, and a pharmacopeia.

Then, when the daily press recounts the desperate struggle on the floor of the house or senate on the duty on binotrolol, myrobolans, fenugreek, margol-wurzel, cudbear, malts-bockings, or zaffer, the

WILL BE GEORGE.

Helgrade, March 30.—Former Crown Prince George and Prince Alexander, youngest brother, exchanged names today as the result of an edict issued by King Peter. The change is so the name George may remain as the head of the house of Karageorgovitch.

POLICE FEAR PLOT.

Des Moines, March 30.—The police believe there is a general plot against Catholic priests here. The Rev. Father Rommelli, of the Italian Catholic church, was threatened by two men. The priest seized a revolver and the men ran. Police are trying to connect Andrew Balentine with the disturbance yesterday and with other attacks.

subject under discussion can be better understood.

By careful reading of the bill one finds that it is possible to purchase dragon's blood in foreign countries. Heretofore one might have supposed that this commodity was exhausted, and that the animals themselves had become extinct, along with the dodo. For those who want it, Balm of Gilead is obtainable abroad—at least the tariff bill says it may come into the United States free of duty. Blues are also a foreign commodity so the bill informs us—perhaps for those prone to mental exaltation. Apparently lakes also can be imported. Then there is bilious paper, which certainly ought to be popular in dry communities.

But just imagine what wild debate will ensue when that paragraph of the bill is reached letting in without a cent of duty such things as annatto, saffron, and saffron. And what a bitter fight will doubtless be waged on the floor against placing dividend, gambler, cerium and resorcin on the free list.

Then there is Paragraph 601, which lets in absolutely and entirely without any levy, the following: "Iridium, osmium, palladium, rhodium, and ruthenium and native combinations thereof."

California, so some members say, is already up in arms against the awful possibility of the passage of one paragraph, which, it is asserted, will flood the nation with a cheap oriental product, the obnoxious munjeet.

The worst catastrophe of all, however, will occur if paragraph 675 is permitted to remain in the bill. It admits the common variety of European "spunk" without a cent of duty. Almost as disastrous would be the adoption of the paragraph admitting xylol, toluolime, xylidin, cumidin, binthronzol, danielidin, diphenylamine and benzaldehyde. Incidentally, there are 46 additional tongue-twisting words in the same paragraph being taken by the reading clerk of the house in exactly 28 seconds. Previous to tackling the job, the clerks spent several hours with a dictionary, going over the bill and spelling out the more difficult words phonetically on the margin of the bill. Two clerks, alternating each half hour, read the 52,000 words of the bill in just four hours and 20 minutes. For a time one of them kept up a pace of 234 words a minute.

One government official, who is connected with the administration of a dependency of the United States situated in the tropical zone, when asked as to his sentiments in regard to the bill, declared: "Well, the only thing I can understand in it is that it will cost me more hereafter to hand someone a lemon."

PATROLMAN AND FIREMAN FIGHT AND ARE LAID OFF

Ike Hollowell, fireman at the Central station, and Patrolman John Bryan will be "on the carpet" at the next meeting of the board of fire and police commissioners, on the charge of fighting. Meantime both are laid off. Hollowell boards at Bryan's, on North Sixth street, and yesterday was Hollowell's day off. Stories of the trouble are conflicting, but Hollowell bears a wound produced on his head by Bryan's club. Bryan was not on duty at the time. Mayor Smith, Chief Wood, of the fire department, and Chief of Police Collins were in conference today in regard to the trouble.

Talk Wage Cut

New York, March 30.—The regular meeting of the United States steel corporation was held this afternoon. It is reported the question of cutting wages of employees was discussed.

M'CRACKEN MAN AGAINST FIELD IN CONVENTION

Three Candidates Combine to
Organize Second Senatorial
District.

Would Name Judge Bugg For
Chairman.

AFTER CARLISLE DELEGATES

It begins to look as if it will be McCracken county's candidate against the field in the contest for the Democratic senatorial nomination in the Second district at the convention here April 27. It is reported that Hon. E. Barry, J. B. Wyatt, of Marshall county, and John M. Moore, of Ballard, have united for control of the convention and will support Judge R. J. Bugg, of Carlisle county, for the chairmanship. This move is of strategic importance in view of the fact that Carlisle county is the only one without a candidate, and the coalition, no doubt, expects to win the support of the Carlisle county Democracy through the popularity of Judge Bugg, who occupies the circuit bench.

The gentlemen concerned are reticent; but it is known that Judge Bugg, Mr. Wyatt and John M. Moore were in the city last night and held a conference. Although E. Barry, of Benton, was not present, it is understood he knew the terms of the compact.

McCracken county won out on the location and time of the convention, as the others desired to hold it away from Paducah and at a later date. The choice of a convention in preference to a primary also was to the advantage of the local candidate, whose forces are more compact and better organized. If McCracken county votes solidly it will have within two votes of enough to control the convention. With three men fighting for the other three counties, McCracken county's candidate had every show to win, naturally expecting an even break on such outside votes as were not given to a "favorite son."

It was this advantage enjoyed by the McCracken county man, which induced the other three to combine. They saw that unless they did, they would lose out on organization and all the way through. After the organization of the convention, if the combine wins, it is understood that the race will be an open contest among them, but the one making the best showing will get the votes of the other two. In other words, this agreement is to defeat McCracken county's candidate at whatever cost.

Although there has been talk that the faction of the county committee, which deemed itself unfairly treated, will fight McCracken county's candidate, the organization does not anticipate any trouble, and it is believed local pride will hold the men to their candidate, both at the precinct convention and at the district convention. With all but two votes corralled to start with, the McCracken county workers expect to pick up more than the necessary two, to complete their majority.

Quoted From Commissioner Bell's Report:

"I have made a very careful and thoughtful study of the conditions of this company and I do not hesitate to say that it has a most brilliant opportunity to become one of the great insurance companies of this country. It has had a remarkable history. Organized only a little over four years ago it has nearly 6,000 policyholders and insurance in force aggregating over \$27,000,000. Its assets are considerably in excess of \$1,000,000, and by virtue of its splendidly equipped medical department, its risks are as good as the best."

THE MONGREL

MAKES BEST PERFORMER, SAYS
SHOWMAN.

Ben Austin Says "Cur" is Quickest
Study and Best Actor With
Gentry Bros.

There are all kinds of dogs around the Gentry Brothers' Famous Shows, which come to Paducah to open their season Saturday, and while most of them are of aristocratic origin and are "tony" to the last degree, there are many in the canine department of the trained animal shows whose family trees have been badly twisted and who emerge from the ancestral forest to receive the classification of "mongrel."

In the opinion of Mr. Ben Austin with the Gentry shows, the "mongrel" or "cur" is more apt to be a "quick study" and a "good performer" than the dog of high degree, and Mr. Austin explains his position in this wise:

"The high bred dog has the stuff in him, all right and under proper conditions will make a good performing dog, but, as a general thing, the dog with a pedigree has led the lazy life ever since he can remember and so have his parents and their parents, until laziness just comes natural. The high bred dog is all right at a bench show, but he doesn't ordinarily make good at a hard day's work."

"Now, the 'mongrel' has had to hustle for the better part of his dog's life. In some cases the cat, dog and drink rule has applied to him, but generally he has had to get up and scratch if he wanted to eat. He has had to look out for himself, and that has made him bright and active and willing to learn."

"For appearances' sake we choose our trained dogs from the canine

aristocracy, but such a course spells harder work for us. For my part, if I were going to organize a troupe of trained dogs I would be entirely willing to go to any dog pound and pick up my pupils there. As a matter of fact, we did have a fine dog named 'Scout' which we rescued from the dog pound in Chicago three years ago and who, although he was most apparently a mongrel, became one of the best trained dogs in the troupe. Aristocracy doesn't always mean intelligence or worthiness—in Dogdom, as well as in other walks of life."

"How many kinds of dogs are there? Well, there are Russian wolf hounds, the St. Bernards, the apitzes, collies, cocker spaniels, shepherds, grey hounds, beagle hounds, deer hounds, German pointers, Russian poodles, French poodles, East Indian poodles, sky terriers, Scotch terriers, Irish terriers, curly dogs, straight-haired dogs, short-haired dogs, long-haired dogs, thin dogs, fat dogs, short dogs, long dogs, spotted dogs, black dogs, white dogs, brown dogs, hinde dogs, bull dogs, and just dogs—including the well-known and much maligned yellow, cur, native of nowhere in particular, found all over the globe, and recipient of my continued respect as you have just noted."

PILES CURED IN 6 TO 14 DAYS.
PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 4 days or money refunded, 50c.

News of Theatres

"Paid in Full."

At the Kentucky tonight will be given Wagenhals and Kemper's great play of present day life in America, by Eugene Walter, "Paid in Full." Breathing strength in every line this play is out of the ordinary. Mr. Walter has taken as his central figures the men and women of every day America and they are spontaneously wholesome figures. The theme of "Paid in Full" is different, vastly different from the conventional cut and squared play, and its presentation is made in a wholesome, forceful fashion.

"The Man of the Hour."

At the Kentucky Wednesday night William A. Brady and Joseph R. Grismer's production, "The Man of the Hour," will be the attraction. The plot, in brief, concerns a young millionaire who has been refused by his sweetheart because he has "dined nothing worthy." He then enters politics and is elected mayor of his city. After assuming the duties of the office he manfully refuses to bow to the political boss. One of the first bills brought to him for his signature had to do with a franchise grab and is promptly by the uncle of the girl with whom he is in love. It looks to the new mayor as if his refusal would cost him all the friends of his family, but after pursuing the rough road, in the end he wins his sweetheart and

Daily Thought.
Learning is ever in the freshness of youth, even of the old.—Aeschylus.

If Olm had not been disappointed in Mr. Taft, we would have been.

You can get your premises cleaned cheaply. Just pile the trash where the city wagon can reach it.

Lexington papers will have to quit calling it "anti-expectorating" ordinance, if they wish the kind of people who violate it to understand them.

Albert Hubbard thinks the trouble with the American people is not graft, but plain pretense. He suggests that we surrender our cards in the Personal Purity League, declare a vacation of the W. C. T. U. and the missionary societies, and try to be honest with ourselves for just one year. We know quite a number of people, who are willing to go with Mr. Hubbard as far as closing down the societies. Not quite so many of them would consent to being honest, though.

A contemporary boasts its dignity in always confining its discussions of things political to measures and leaving the personalities involved in the contest alone. We take exactly the opposing view. The longer we live and observe, the more we are convinced that there is a large percentage of buncombe in political principles(?), and jobbery in measures, while the character of men selected to administer the government is the prime essential to good government. We are good men and they will give us good laws and enforce them.

CONGRESSIONAL GRAFT.
When the millions of dwellers in the great inland valley of North America demand that congress issue bonds for the improvement of the waterways, congressional leaders declare the country is facing a deficit. When the executive department asks for ships to guard both oceans, the same answer is forthcoming. If they had it to do over again, they would pluck the Panama canal project.

Yet, we venture the assertion that congressional graft and waste and extravagance account for the deficit and millions more. To begin with, why should the country lose money every year handling the mail? A business-like contract with the common carriers would cut out a few millions there. Republican and Democratic senators join in squandering millions every year on ship yards, to which a battleship cannot float even at high tide. Ben Tillman has one in South Carolina and a senator from Florida gets one for his support. We hope that Mr. Taft will evince the same persistent spirit of inquiry that Mr. Roosevelt would have manifested, had a deficit threatened his term; for it is congressional graft that is responsible. Our natural burden is growing heavy and we can't carry any excess in the future.

HELP THE CHILDREN WIN.
Under the inspiration of the Woman's club, Mayor Smith personally has offered three gold watches and \$50 in cash as prizes to encourage the cleaning up of private premises in

PRIZES FOR IMPROVING CITY PREMISES.

Offered By Mayor Smith In Contest Extending Throughout April

- For Boy or Girl Selling Most Trees—Gold Watch.
- (Produce certificate of purchaser that he set out trees in Paducah, and express or freight receipt for delivery.)
- For Largest Collection of Trash—Gold Watch.
- (City wagons will collect and take name of boy or girl to whose credit pile is collected.)
- For Whitewashing most surface—Gold Watch.
- (Keep record of surface whitewashed and judges will give credit.)
- For Most Improved Premises Since April 1.—\$35 in Cash.
- Second Prize for Improved Premises.—\$15.
- (Character of residence and location not considered, but repairing, painting, planting whitewashing etc., are counted.)
- Contest begins April 1 and ends April 30.
- Miss Adine Morton, chairman Ayer's department Woman's club, Miss Elizabeth Sinnott and Mrs. Charles Riger have control of contest.
- Information on points not understood will be furnished at The Sun office.

the city and the planting of trees. It requires only the co-operation of citizens, especially parents, to realize great material benefits to the city, by making it more attractive and more healthful, and thereby more desirable as a residence city. Without this co-operation the mayor's efforts will be in vain.

It would be wise to announce this cleaning up contest in the schools and to send the children home when school is out to broach the proposition to their parents. The plan is simple and feasible. If the children will clean up their own premises and enlist their neighbors and friends in the fight to get every atom of trash off their premises and in a pile, where the city wagon can reach it, credit will be given for each pile to the person designated, and truly will be kept of them. There is no cost attached to the hauling, isn't it worth while to strive for a prize in the fight against dirt and germs?

It would be a great object lesson to the children and the parents, too, to see what a huge pile of trash can be collected from one yard. The different aspect after the removal of the trash will be a picture that will linger forever in the mind of the child. Isn't it worth your while, parents, to give your children this object lesson in cleanliness?

Then, too, the dirtiest neighborhoods have the advantage in the contest. The bigger the pile of trash the better show the contestants stand. It isn't a contest, in which the more improved residence portions have the advantage.

In the contest for the best improved premises, the one that shows the most work in the way of cleaning up, planting grass and trees, whitewashing, painting and neat repairing, will be the one to win the prize. The fine home and elegantly kept up premises will not have the advantage in this.

What boy cannot sell trees? Thousands can be sold in Paducah next month, if the boys secure agencies for first-class nurseries, and canvass the city well. They must be able to produce certificates from the purchaser that they planted the trees in Paducah, and the number thus specified must tally with freight or express receipts possessed by the contestants, so that there will be no cheating.

The whitewashing contest, like the trash contest, depends upon the enthusiasm with which the contestants start out. If they attend to their own premises and enlist their neighbors in their behalf, they will make it lively.

The contestants, who lay their plans in advance and set to work promptly April 1 and keep it up throughout will win.

DRINK PLENTY OF GOOD WATER

Also Recipe to Relieve Kidney Trouble Which Anyone Can Prepare.

"The people here do not drink enough water to keep healthy," exclaimed a well known authority. "The numerous cases of kidney and bladder diseases and rheumatism are mainly due to the fact that the drinking of water, nature's greatest medicine, has been neglected."

Stop loading your system with medicines and cure-alls; but get on the water wagon. If you are really sick, why, of course, take the proper medicine—plain common vegetable treatment, which will not shatter the nerves or ruin the stomach."

To cure Rheumatism you must make the kidneys do their work; they are the filters of the blood. They must be made to strain out of the blood the waste matter and acids that cause rheumatism; the urine must be neutralized so it will no longer be a source of irritation to the bladder, and, most of all, you must keep these acids from forming in the stomach. This is the cause of stomach trouble and poor digestion. For these conditions you can do no better than take the following prescription: Fluid Extract Dandelion, one-half ounce; Compound Sarsaparilla, three ounces. Mix by shaking well in bottle and take in teaspoonful doses after each meal and at bedtime, but don't forget the water. Drink plenty and often.

This valuable information and simple prescription should be posted up in each household and used at the first sign of an attack of rheumatism, backache or urinary trouble, no matter how slight.

These two boats will be in port again from Nashville next Saturday.

The Golden Rod will be in port tonight from the lower Ohio and will go on up the Tennessee on an eight-day trip tending to the lights. When she returns from the Tennessee she will go on up the Ohio tending lights.

The Fulton and the Fred Hartwig helped the big towboat Pittsburgh through the Cairo bridge yesterday. The tug which has been used to help the big boats to run the bridge is tied up for repairs.

The Harvester will get away this week with a big tow of coal for the West Kentucky Coal company. She will take her tow to Memphis. Capt. William Blinn will relieve Capt. Boyce Berryman on this trip of the Harvester. Capt. "Louisville Billy" Smith will be the other pilot on the Harvester.

Capt. Boyce Berryman will pilot the Wayman up the Tennessee, leaving here tomorrow. The Wayman will bring out a tow of ties.

The Reaper and the Egan are both busy towing coal from the mines at Caseyville for the West Kentucky Coal company. The coal will be shipped south.

WILLIAM J. HOLT

DIES AT HIS HOME AT AGE OF 82 YEARS.

Prominent Business Man Once, and Respected Citizen of This County.

Mr. William J. Holt, 82 years old, died yesterday noon at his home several miles from this city on the Fisher school house and Mt. Zion road, after a brief illness of pneumonia. Mr. Holt was ill only four days with pneumonia. Mr. Holt was formerly a business man of this city. He was born and reared in Robertson county, Tenn., and 40 years ago he came to this city and engaged in the grocery business in Rowlandtown, till nine years ago when his wife died. Mr. Holt then sold out and retired from business and made his home with his son, Mr. L. B. Holt, where he lived till his death. He was a member of the First Christian church of this city. Besides a large number of friends and relatives in this city and in the county he is survived by two daughters: Mrs. George Kelley and Mrs. William Kelley, of the county; four sons: Mr. L. B. Holt and Mr. William Holt, of Florence station; Mr. Clarence Holt, of Knoxville, Tenn.; and Mr. Edgar Holt, of this city. Three sisters, Mrs. Minerva Metts and Miss Bettie Holt, of Goodlettsville, Tenn., survive. All the family but Mr. Clarence Holt, of Knoxville, attended the funeral, which was held at noon today at the residence where Mr. Holt died. The Rev. T. M. McGee officiated. The burial was in Oak Grove cemetery this city.

William T. Day, 52 years old, formerly a marine engineer running out of Paducah, died March 12 at Wellsville, Mo., although his friends in Paducah have just learned the news. He was ill of dropsy, and while sitting in a chair death overcame him. Mr. Day was born in Hampshire county, Va. He had run steamboats on the Mississippi and Ohio rivers for many years.

Mr. and Mrs. Frank Walker, of Mechanismsburg, are the proud parents of a fine baby girl, born yesterday. Dr. Frank Boyd left yesterday on professional business trip to Chicago.

IN SOCIAL CIRCLES

Martin-Jonson Wedding.
A marriage which was beautiful and impressive in its simple solemnization was that of Miss Elizabeth Martin and Mr. William Crawford Jonson, Monday evening at 9:30 o'clock at the home of the bride's parents, Mr. and Mrs. William Alexander Martin, 1149 Jefferson street. It was witnessed by relatives, a limited number of the bride's personal friends, and out-of-town guests.

The house was effectively decorated with palms, ferns and smilax. The double doorways were outlined with the plumosa fern. The chandeliers were twined with smilax and the stairway was artistic with the amilax and plumosa. In the front parlor an altar of palms and ferns arranged in a pyramid effect made a pretty background for the bridal party.

The maid of honor, Miss Marjorie Martin, and the best man, Mr. William Milton Martin, of Birmingham, Ala., preceded the bride and the bridegroom. Miss Virginia Newell played the Mendelssohn wedding march as a bridal procession and rendered an artistic program preceding the entrance. The ceremony was impressively pronounced by the Rev. G. T. Sullivan, pastor of the Broadway Methodist church.

The bride was especially handsome in a charming gown of white chiffon cloth over white silk. It was effectively trimmed with lace and was made princess. The bridal bouquet was of white roses with a shower of white hyacinths.

The maid of honor was charmingly glist in a lingerie frock of white embroidered null. She carried a shower bouquet of pink carnations and pink hyacinths.

An informal reception followed the ceremony. Mr. and Mrs. W. A. Martin were assisted in receiving the guests in the hall and parlor by Mr. and Mrs. Herbert Martin, Dr. Beverly Martin, of Greenville, and Miss Grace Bohannon, of Greenville.

Mrs. Pat O'Brien and Mr. Arthur Martin welcomed the guests at the head of the stairway.

The dining-room was a pretty effect in white and green. The bride's table had a cover of Chiny lace, outlined with smilax. The center-piece was a handsome green and white electroler surrounded by ferns, smilax and white roses. Garlands of white tulip and smilax fell from the vine-hung chandelier to the four corners of the table. The lilies and cakes carried out the motif of the wedding colors and each plate was decorated with pink carnations. Receiving in the dining-room were: Mrs. W. J. Humphrey, Mrs. Marshall Puryear, Mrs. William L. Young, Mrs. W. H. Evans, Miss Mamie O'Brien, Miss Claire Winston.

Frappe was served at a prettily decorated table in an alcove of the hall. Mrs. Clarence Martin, of Greenville, presided here and was assisted by Miss Ethel O'Brien and Miss Myrtle Knight. The wedding guests register was kept by Miss Bettie V. O'Brien and Mr. Arthur Martin. The wedding gifts made a beautiful collection and consisted of many handsome pieces of silver, china and cut glass.

Mr. and Mrs. Jonson left at 1:20 o'clock for Greenville, their future home, where they will go at once to housekeeping. The bride's going-away costume was a stylish tailored suit of London smoke cloth with hat and gloves to harmonize. She is a young woman of many fine and lovable traits of character and has a wide circle of friends in Paducah. Mr. Jonson is junior member of the law firm of Jonson, Wickliffe & Jonson in Greenville, and is a young man of prominence.

The out-of-town guests present for the wedding included: Judge Jay Jonson, of Greenville, the father of the bridegroom; Mr. and Mrs. Gerold A. Jonson, of Madisonville; Mr. and Mrs. Clarence Martin, of Greenville; Miss Grace Bohannon, of Greenville; Mr. Hugh Bohannon, of Greenville; Mr. Claude Baker, of Greenville; Mr. Paul Wickliffe, of Greenville; Mr. John T. Reynolds, Jr., of Greenville; Mr. Claire Bades, of Greenville; Judge A. Taylor, of Greenville; Mr. William Bades, of Greenville; Dr. Beverly Martin, of Greenville, a brother of the bride; Mr. William Milton Martin, of Birmingham, Ala.

TROUTWINE HELD OVER BY MAGISTRATE EMERY.

As her father extended her his hand and while his eyes were full of tears, Carrie Troutwine, who charged her father, Manuel Troutwine with incest, refused to recognize him, and said: "No, I will not shake hands with you for you have done me dirt enough." Her father passed on silently and was led to the county jail by Detective T. J. Moore. The incident followed the holding over of Troutwine to the grand jury by Magistrate C. W. Emery. The girl is 14 years old, and yesterday in the trial told her story of her downfall, which she said was due to her father. For the conditions under which the girl has been reared she is unusually bright of mind. Her father declared he is innocent, and said it was "a put up job." Troutwine was unable to give a bond of \$500.

S.S.S. PURIFIES BAD BLOOD

Bad blood is responsible for most of our ailments, and when from any cause it becomes infected with impurities, humors or poisons, trouble in some form is sure to follow. Muddy, sallow complexions, eruptions, pimples, etc., show that the blood is infected with unhealthy humors which have changed it from a pure, fresh stream to a sour, acid fluid, which forces out its impurities through the pores and glands of the skin. A very common evidence of bad blood is sores and ulcers, which break out on the flesh, often from a very insignificant bruise, or even scratch or abrasion. If the blood was healthy the place would heal at once; but being infected with impurities which are discharged into the wound, irritation and inflammation are set up, the fibres and tissues are broken, and the sore continues until the blood is purified of the cause. S.S.S. is Nature's blood-purifier and tonic, made entirely from roots, herbs and barks. It goes down into the circulation and removes every particle of impurity, humor or poison, restores lost vitality, and steadily tones up the entire system. S.S.S. neutralizes any excess of acid in the blood, making it pure, fresh and healthy, and permanently cures Eczema, Acne, Tetter, Salt Rheum, Boils, and all other skin eruptions or diseases. Book on the blood and any medical advice free.

Slump in Wheat Shipments From Australia—Bent's Lack Aggressive Leaders.

INDICATIONS FOR A BIG CROP

Chicago, March 30.—As a world proposition the supply of wheat, as suggested in the news of the week, came nearer to the bull theory than heretofore. In consequence there were stronger foreign markets, which in turn had a bracing effect on domestic markets and brought about an advance of about 1 1/2 to 2c over the closing prices of the week before. At that it was a quiet sort of week in the local pit compared with the lively sessions that have been staged there since the first of the calendar year. The other cereals felt the uplift of wheat and manifested besides some inherent strength of their own.

There was some depressing news for the bulls at the beginning of the week, notably "an increase in the visible supply of 85,000 in the United States compared with a decrease of 1,000,000 bushels a year ago and an increase of 587,000 bushels a year ago and an increase of 587,000 bushels in Canada against a decrease of 11,000 bushels the same week a year ago. Tuesday the situation in the Balkans had assumed a more reassuring phase and there was little in argument to look to in that quarter. With good weather prospects at home it began to look as if the hours were in for a rosy six days in which they might have things their own way.

British News.

And then along came the advices from Australia of a certain slump in shipments the rest of the season. This information gave strength to the markets in Europe, a tendency which was helped still further later when it became apparent that Argentine was following the example of Australia in reducing her shipments.

"My kingdom for a leader!" was the cry of the bears during the week. Although there were advantages at hand which might have been utilized to make inroads on the bulls, there was nobody to take the flag and cry "Come on, boys." It demonstrated anew what had been said often that there was no big, strong, influential man on the either side of the market who had courage to go ahead on his own account and enthusiasm enough to infect others. Consequently the bull leaders had good chances to get rid of more of their holdings at good terms without allowing the market to become demoralized. As a result the May deal is slowly but surely dwindling in importance.

Advices From Argentine. In the closing days the buoyant influences came from Argentine. Popular sentiment was plainly affected by the advices from there. Although the week's shipments fell off over 1,300,000 bushels from those of the week before and were about 2,500,000 short of those of the corresponding week in 1908, there was at the same time a shrinkage of 1,500,000 bushels in the Argentine visible supply. On top of this it was said the interior marketings gave promise of dropping off materially henceforth.

Coupling this South American situation with that which seems to prevail in Australia, there was an item that exerted a strong influence, especially as the figures submitted were borne out by European market developments. The Australian movement was 1,592,000 bushels, which is large enough as compared with the 440,000 bushels a year ago, but rather dwarfed in comparison with the 2,457,000 bushels the previous week.

Had the same brand of news came out of the big American and Canadian centers, there would have been a good tale to tell of the week's doings. Receipts at Duluth and Minneapolis, however, led to the conviction that any domestic shortage must not be looked for at once. On Friday, for instance, the receipts at primary points were 44 per cent in excess of those of a year ago. Much of this increase was in the northwestern states, and over in Canada Winnipeg did even better proportionately than Duluth and Minneapolis in the matter of receipts.

Exports for the week from the United States and Canada aggregated 2,935,000 bushels, compared with 2,394,000 bushels a year ago. The total in exports of the two countries since the first of last July is 146,109,000, compared with 166,647,000 bushels the same period of the previous crop year.

water is altogether favorable. In the spring wheat country present appearances are that seeding will be earlier than usual and under excellent conditions. South Dakota is getting very busy in that direction. Reports from the winter wheat territory are generally of the bright kind. Altogether present prospects are for a large acreage for 1909. The flour trade continues one of the heavyweights, with little likelihood of immediate betterment.

All the options in corn made a net gain of a cent during the week, largely in sympathy with wheat, but the rainy weather, wet roads and consequent limiting of the movement from first hands helped the trend upward. The wheat bulls lent some muscle to corn for the good effect it might have on the wheat market. Corn planting has begun in Oklahoma and some other favorable parts and the outlook is for an enormous acreage this year. Nebraska was one of the most liberal marketers. Seaboard exporters bought a limited amount of corn here on account of the low ocean freight rates, but re-sellers supplied the eastern distributors at prices lower than could be quoted in this market. Export clearances for the week were 1,154,000 bushels, compared with 845,000 bushels a year ago. There is said to be an aggregate holding of about 9,000,000 bushels of May corn in half a dozen local commission houses. These are houses which have a large country clientele, made up chiefly of small accounts, and it is not believed any of the holdings are for men who trade on a large scale.

Oats Gain During Week.

Favorable reports of oats seeding are coming in from Illinois and the southwest. In Central Illinois oats planting is nearly over and the ground is said to be in an excellent condition. May gained 1/2c, July 3/4c and September a full cent over the closing prices of the previous week. Values were strengthened by wheat and corn, but trading was light and there was a general feeling that the fine prospects for a big crop in 1909 warranted caution, especially in the futures of that crop year. Of this showing there was heavy selling pressure lately by professional speculators and country commission houses. According to one observer, "If weather conditions continue as they have been there is every promise that we will seed the largest crop of corn, oats and spring wheat that this country has ever seen. The short seller of the grain list should make a fortune in the next ninety days."

Provision trade as a rule was light with small price changes. The run of hogs was heavy and for the first time packing operations at western centers ran a bit ahead of those of a year ago, although packing from March 1 shows a decrease of 150,000 hogs. The trade acted gingerly on the belief that a leading long was trying to unload.

A BOLD STEP

To overcome the well-grounded and reasonable objections of the more intelligent to the use of secret, medicinal compounds, Dr. R. V. Pierce, of Buffalo, N. Y., some time ago, decided to make a bold departure from the usual course pursued by the makers of put-up medicines for domestic use, and so has published broad-cast and openly to the whole world, a full and complete list of all the ingredients entering into the composition of his widely celebrated medicines.

Thus Dr. Pierce has taken his numerous patrons and patients into his full confidence. Thus too he has removed his medicines from among secret nostrums, of doubtful merits and placed them in a class all by themselves by making them remedies of KNOWN COMPOSITION. By this bold step Dr. Pierce has shown that his formulas are of such excellence that he is not afraid to subject them to the fullest scrutiny.

Not only does the wrapper of every bottle of Dr. Pierce's Golden Medical Discovery, the famous medicine for weak stomach, torpid liver or biliousness and all catarrhal diseases wherever located, have printed upon it in plain English, a full and complete list of all the ingredients composing it, but a small book has been compiled from numerous standard medical works, of all the different schools of practice, containing very numerous extracts from the writings of leading practitioners of medicine, endorsing in the strongest possible terms, each and every ingredient contained in Dr. Pierce's medicines. One of these little books will be mailed free to any one sending address on postal card or by letter, to Dr. R. V. Pierce, Buffalo, N. Y., and requesting the same.

As made up by improved and exact processes, the "Favorite Prescription" is a most efficient remedy for regulating all the womanly functions, correcting displacements, as prolapsus, anteversion and retroversion, overcoming painful periods, toning up the nerves and bringing about a perfect state of health. Sold by all dealers in medicines.

From this little book it will be learned that Dr. Pierce's medicines contain no alcohol, narcotics, mineral agents or other poisonous or injurious agents and that they are made from native, medicinal roots of great value; also that some of the most valuable ingredients contained in Dr. Pierce's Favorite Prescription for weak, nervous, overworked, "run-down," nervous and debilitated women, were employed, long years ago, by the Indians for similar ailments affecting their squaws. In fact, one of the most valuable medicinal plants entering into the composition of Dr. Pierce's Favorite Prescription was known to the Indians as "Squaw-Weed." Our knowledge of the uses of not a few of our most valuable native, medicinal plants was gained from the Indians.

tonomo Tribe No. 1, of this city, for the entertainment of the Great Council of the Improved Order of Red Men for Kentucky, which will be held in this city May 11 and 12.

The Auditorium has been engaged for the event and between 400 and 500 delegates representing the 211 councils of the State are expected. Frank L. Smith, of this city, is great chief of the records, and Mr. Smith expects even a larger attendance at the meeting here than that held at Frankfort last year when about 400 delegates were present.

Great Chief of Records Smith has just completed his annual report showing the growth of the Kentucky branch of the order during the year 1908. This will be forwarded Monday to Wilson Brooks, great chief of records of the Great Council of the United States at Chicago. According to the report there are now 211 tribes in Kentucky, with a total membership of 12,451. Fifty-four new councils were created during the past year and there was a total gain in membership of 847 over that of the preceding year, which is considered a very creditable showing.

CHARM THE FAT AWAY.

To reduce by means of exercise
or dieting is nothing but torture to
the flesh and mortification to the
spirit. It is so much simpler to
"charm" it away. Of course, I don't
mean by "spells" or "incantations,"
but through the occasional use of
this home receipt, viz: 1/2 ounce
Marmola, 1/2 ounce Fluid Extra
Cascara Aromatic and 3/4 ounces
Peppermint Water, which any one
can obtain at any drug store for a
small sum and mix at home. Take
a teaspoonful after meals and at bed-
time. It literally charms the fat
away. Takes it off just where you
need it off and does it quickly but
harmless. Many persons lose as
much as a pound a day.
Isn't that "charming" off the fat
—eat what you please and still lose
a pound a day—without strain, in-
jury or effort?

**A Gentleman
From Mississippi**

By **THOMAS A. WISE**

Novelized From the Play by Frederick T. Toombs

COPYRIGHT, 1903, BY THOMAS A. WISE

(Continued from last issue.)

"Mr. President," he cried passion-
ately, "I know this is not the time or
place for a discussion like this, but
ask that senatorial courtesy permit me
to ask"—then he concluded strongly
before he could be stopped—"what is
the evidence in support of this pre-
posterous charge?"

"This is all out of order," said the
presiding officer after a pause, "but
in view of the circumstances I will
entertain a motion to suspend the
rules."

This motion passing, Horton replied
to Langdon.

"Your name is signed to a contract
with J. D. Teller, mayor of Gulf City,
Miss., calling for \$3,000 shares in the
Gulf City Land company, and—"

"A lie, a lie!" screamed Langdon.

"That official," went on Horton cool-
ly, "is now in Washington. He has
the contract and will swear to con-
versations with you and your secre-
tary. His testimony will be corrobo-
rated by no less a personage than Con-
gressman Norton of your own district,
who says you asked him to conduct
part of the negotiations."

"And I might add," cried Horton,
"that it is known to more than one
member of this honorable body that
you had drawn up a minority report in
favor of Gulf City because of your
anger at the defeat of your plan to
take the naval base away from Ala-
bama."

Langdon sank into his chair, be-
wildered, even stunned. There was a
conspiracy against him, but how could
he prove it? The ground seemed crum-
bling from under him—not even a
straw to grasp. Then the old fighting
blood that carried him along in Beau-
regard's van tugged at the valves of
his heart, revived his spirit, ran through
his veins. He leaped to his feet.

A sound as of a scuffle—a body fall-
ing heavily—drew all eyes from Lang-
don to the rear of the main aisle. An
assistant sergeant at arms was lying
face downward on the carpet. Anoth-
er was vainly trying to hold back Bud
Haines, who, tearing himself free,
rushed down to his chief wailing in
sheet of paper in the senator's cry.

"Read that," gasped the secretary
breathlessly, and he hurried away up
a side passageway and out to reach
the stairs leading to the press gallery.

Langdon spread the paper before
him with difficulty with his trembling
hands. Slowly his whirling brain gave
him the ability to read. Slowly what
appeared to him as a jumbled nothing
resolved into orderly lines and words.

"The letter is signed 'Charles Norton.'"

He read and again stood before the
senate, which had regained its usual
composure after the fallen sergeant at
arms had regained his feet and rubbed
his bruises.

"I do not think there will be any in-
vestigation," he said, with decided ef-
fort, struggling to down the emotion
that choked him. "I ask this house to
listen to the following letter:

"Dear Senator Langdon—When you
receive this letter I shall be well on
my way to take a steamer for Cuba. I
write to ask you not to think too
harshly of me, for I will always cher-
ish thoughts of the friendship you have
shown me."

"Peabody and Stevens have finally
proved too much for me. When they
got old Teller to swear to a forged
contract and wanted me to forge your
name in the land records at Gulf City,
I threw up my hands. Their game will
always go on, I suppose, but you gave
them a check when you broke up their
Altacoola graft scheme. And I'm glad
you did. They cast me aside today,
probably thinking they could get me
again if they needed me."

"I am going on the sugar plantation
of a friend, where I can make a new
start and forget that I ever went to
Washington."

Langdon paused deliberately. The
senate was hushed. The galleries were
stilled. Not even the rustle of a sheet
of paper was heard in the reporters'
gallery. The Mississippians gazed

at the old planter who stood before
the broad veranda in the warm south-
ern twilight, and he thinks of the
days that were. He remembers how
the Third Mississippi won the day at
Crawfordville. He thinks of the days
when he fought the good fight in
Washington. His thoughts turn to the
memory of her who went before these
many years and whom he is soon to
see again, and peace descends on the
soul of the gentleman from Missis-
sippi as the world drops to slumber
around him.

**BOYLE IS GIVEN
SHORT HEARING**

Kidnaper Taken Back to Jail
in Mercer, Pa.

Bail Fixed at \$25,000, Which It Is
Said Boyle Cannot Secure—Wife
Thought Not

TO BE McDERMOTT'S DAUGHTER

Sharon, Pa., March 30.—It re-
quired but a few minutes for the pre-
liminary hearing of James H. Boyle,
charged with the abduction of Willie
Whitla. Two questions and answers
made up the proceedings.

"What is your name?" asked Jus-
tice Gilbert.

"James H. Boyle," was the reply.

"Do you want a hearing on a
charge of abduction now?"

"Not at this time," he replied and
the hearing was over.

Bail was fixed at \$25,000, which it
is said Boyle has no chance of secur-
ing, and the prisoner was returned to
jail at Mercer.

Mrs. Boyle will not be brought
here for hearing at all. The state-
ment that she was Helen McDermott
is doubted here from the fact that
not one of the McDermott family has
extended her any aid as far as the
public knows, or put in an appear-
ance since her arrest. She has been
positively identified by Sharon peo-
ple as James Boyle's wife, but beyond
that her identity is not known here.

Woman May Not Be Tried.
Mercer, Pa., March 30.—The opin-
ion is spreading among the people of
this county that Mrs. Boyle will not
be prosecuted, but that she will very
soon be entirely eliminated from the
case and be allowed to depart. There
is said to be no local proof whatever
to connect her with the abduction
and she absolutely refuses to aid the
local authorities in the least. The

supposition is that she will soon be
free.

This is borne out by the delay in
arraigning her. Although it was pos-
itively stated by the district attorney
that "they" would take her to Sharon
for formal arraignment, it is now
stated that the trip to Sharon has
been abandoned for the present. Mrs.
Boyle had agreed to demand an early
hearing.

It is said that her prosecution is
not eagerly desired by Mrs. Whitla,
whose wishes are likely to be re-
spected. No results are known of the
attempt to locate the alleged accom-
plices and it looks as though Boyle
is to be made to bear the brunt of
the punishment for the abduction.

Has Plausible Defense.

Pittsburgh, March 30.—The news
brought to trial for her alleged part
in the abduction of Willie Whitla
was received here with interest. De-
tective Harry Perkins, who has been
very active in the case, declares that
the woman will have a plausible de-
fense if she is given a hearing.

"From what Mrs. Boyle has told
me," said Perkins, "I believe she
will have a straightforward story to
tell on the stand. She will say she
had been sick for two or three weeks
previous to the kidnapping of the boy
and that her husband, 'Jimmie' Boyle
had come to see her and told her
that the boy had been placed in their
care by his father. Her story, I
think, will continue that she under-
stood the boy had been exposed to
smallpox, and that they were to get
a large sum of money from the
father for taking care of him. She

around the senate chamber. He saw
Stevens and Peabody cruising their
necks across the aisle and talking ex-
citedly to each other.

Then he stepped forward and spoke,
waving the paper in the air.

"This letter is signed 'Charles Norton.'"

The old southerner gazed triumphantly
at the men who had sought to de-
stroy him. It was with difficulty that
the presiding officer could hammer
down the burst of handclapping that
arose from the galleries.

Senator Horton, however, was not
satisfied with Langdon's sudden as-
cendancy.

"How do we know that that letter is
not a forgery, a trick," he exclaimed.

"Go get Congressman Norton—if you
can—and get his denial," responded
Langdon.

The junior senator from Mississippi
hurriedly pushed his way out of the
senate chamber. His day's work was
done.

Down on a broad plantation along
the Pearl river an old planter, who has
borne his years well, as life goes now-
adays, passes his days contentedly. He
delights in the romping of his grand-
children as they rouse the echoes of
the mansion and prides himself on the
achievements of their father, Han-
delph, who has improved the planta-
tion to a point never reached before.

Sometimes he receives a letter from
his daughter, Hope Georgia, now Mrs.
Haines, telling him of her happy life, or
perhaps it is a letter from Carolina,
describing the good times she is having
in London with the friends she is visit-
ing.

And the old planter goes out on the
broad veranda in the warm south-
ern twilight, and he thinks of the
days that were. He remembers how
the Third Mississippi won the day at
Crawfordville. He thinks of the days
when he fought the good fight in
Washington. His thoughts turn to the

brought to trial for her alleged part
in the abduction of Willie Whitla
was received here with interest. De-
tective Harry Perkins, who has been
very active in the case, declares that
the woman will have a plausible de-
fense if she is given a hearing.

"From what Mrs. Boyle has told
me," said Perkins, "I believe she
will have a straightforward story to
tell on the stand. She will say she
had been sick for two or three weeks
previous to the kidnapping of the boy
and that her husband, 'Jimmie' Boyle
had come to see her and told her
that the boy had been placed in their
care by his father. Her story, I
think, will continue that she under-
stood the boy had been exposed to
smallpox, and that they were to get
a large sum of money from the
father for taking care of him. She

Stevens and Peabody cruising their
necks across the aisle and talking ex-
citedly to each other.
